These new signs will have a case number, date of the public hearing, time of the public hearing, and the meeting location. When calling the Planning Department, the public should provide the posted case number and date of hearing.

The Unified Development Standards Ordinance (UDSO) requires that public notice signs be posted to inform the public that the property in question is involved with a request being heard by either the Planning Commission or the Board of Appeals. The signs will be posted at least 15 days prior to the public hearing. These re-designed signs will provide a greater level of public information regarding projects and items slated for public hearings.
